To Whom it may concern,

Killarney National Park Education Centre / Cappanalea Outdoor Education Centre, have similar ***Insurance Policies*** to that of Vocational Schools, with extended cover to include the Outdoor and Adventure Sporting Activities. Kerry Education Service, the parent body, has both Centres fully insured with Irish Public Bodies.

It is a Public Liability Policy, which will cover damages up to €10m for any one accident. Negligence must be proven against the V.E.C. before any claim will be successful.

In addition to this cover, ***Cappanalea OEC*** has arranged an optional Personal Accident Insurance Cover for all participants attending courses organised by the Centre. This optional cover if purchased will compensate those who are accidentally injured while on a course at Cappanalea.

Furthermore all of the Cappanalea OEC instructors hold National Governing Body instructorship qualifications in the full spectrum of adventure activities offered by the Centre. Cappanalea OEC has a comprehensive safety statement which clearly identifies the guidelines to which it operates for each activity.

I hope that this clearly explains the insurance situation at ***Cappanalea OEC***. If you have any further queries don't hesitate to contact me.

Yours sincerely,

Donal O'Dubhda
Centre Manager
