Primary School Programmes

This is a guide to the dynamic and adventure primary school programmes / tour options at the Kerry OETC's. These tour options can be run on a residential or non-residential basis. The programmes are aimed at supporting and enhance the learning which occurs within the schools. Our courses are designed to meet the educational needs of primary school students and establish clear links with the national curriculum.

A day's hill walking at Cappanalea OETC will immerse the students into the natural world where they will gain a greater understanding of geography and science. From the high vantage point on the hilltops they can trace the history of human interaction with the environment. While engaging in hillwalking or other non-competitive outdoor activity, it allows the children to develop socially in a supportive setting.

Whether it's a half day school based environmental awareness class or a Centre based full day SESE programme, the Cappanalea OETC staff can deliver programmes that enhance and give depth to the curriculum. They can ensure a meaningful and quality experience which will help in the student's understanding and retention of the subject matter.

All our programmes / tours are student focused and include adventure, fun, knowledge and skills throughout.

CHOOSE FROM THE FOLLOWING ACTIVITIES: kayaking/canoeing; rockclimbing /abseiling; orienteering; hillwalking; raftbuilding; team challenges; nature studies.
